### Items included in tool kit 38-0302-00

### 38-0101-00 RASP

This tempered steel, curved Rasp is recommended for removing rust and mill scale from steel and cast iron surfaces. The blade is replaceable. Specify part # 38-0101-01. Not recommended for use on galvanized surfaces.

### PACKING MATERIAL

Packing Material is used to prevent the molten weld metal from leaking out of the mold. When cable opening becomes worn from heavy use, the packing material may be used to prolong mold use. It is also used around 7 strand cable to prevent leaking. Packing material comes in a 1 lb or a 5 lb package.

- Part #38-4129-00 for 1 lb package
- Part #38-4129-05 for 5 lb package

*Note: This packing material to be used on outside of mold only. If packing gets into weld cavity, gassy welds will result.*
